

Student Chapter Installation ceremony by Indian Society of Heat Refrigeration and Air conditioning Engineering ISHRAE , 8 August, 2015

The Indian Society of Heating, Refrigerating and Air Conditioning Engineers (ISHRAE) was established to promote the HVAC industry in India. ISHRAE is an associate of ASHRAE. ISHRAE was started at Delhi in 1981 and a chapter was started in Bangalore in 1989. Between 1989 & 1993, ISHRAE chapters were formed in all major cities in India. The purpose of an ISHRAE student chapter is to get more students interested, concerned, and involved in pursuing a

career in the field of heating, ventilating, air conditioning and refrigeration. ISHRAE student chapter activities are administered by students as elected officers which provide students with an experience that simulates running a business or an organization. Student officers are counseled by the college Faculty Advisor but may also be mentored by members of their local ISHRAE CWC Student chair. ISHRAE has more than 190 student chapters at many colleges throughout the country. Students interested

in an HVAC&R career are encouraged to participate in ISHRAE to further their knowledge, practical experience, and professional development
