

PRAYAG 2014

- Alumni Meet... Meeting of two minds...

FEBRUARY 27, 2014

About the Event...

'Prayag' is a name of a place based near Allahabad. It carries a sacred significance as it is a meeting point of two most important and pious rivers of India. Naming the alumni meet as Prayag, was an outcome of its significance as this event also witnessed meeting of two substantial bodies of the institute i.e. Alumni and Final year students who are going to graduate in 2014.

It aimed at providing a platform to the final year students to take the advantage of the experience of the alumni who passed out previous year and can also learn the various facets of working in an industry.

It was a mesmerizing experience to see the warmth of the alumni

which they reflected by sharing their invaluable experience of post-graduation life. They wished the students for all success during their job search. Out of 66 registered students, 37 students participated in the event.

Final year students posed some relevant questions and requested the alumni to answer them. Our honorable principal madam shared her words of wisdom and focused on the aim of the event by her valuable speech.

This forum will act as a great resource to the budding engineers to get an insight over the experience of working for the companies. The institute shall always be indebted to the alumni students for accepting this invite with great humility.

Glimpses of the Event...

Students sharing their experiences

Student Participation...

Mechanical Engineering	04
Civil Engineering	08
Electronics and Communication	05
Computer Engineering	20

Alumni Speak...

“Students should focus on skill development rather than concentrating much on academic results...”

“Before applying for job, industry demands shall be anticipated...”

“The market is really tough for those who are incompetent...”

“There should be an emphasis on understanding the basics of the subject and then an approach should be made to understand the advanced developments.”

“Industries are transforming and they demand for skills related to new technologies.”

“Perseverance and right mindset is required to search for right job”

“Students who wish to study further should make a wise decision over selecting the institute.”
