

Department : **Mechanical**

Year : **2015-2016**

Group No: **35**

Guided By

**PROF. P. R. MISTRI**

**SMT. S. R. PATEL ENGINEERING COLLEGE, UNJHA**

**Project Title**

**IMPACT OF JET APPARTUS**

**Abstract:**

This objective of this experiment is to study the jet forces impacting against stationary deflectors. The deflectors used in this experiment can be categorised into three geometries. Plate, hemisphere and slope deflectors are used for this experiment. Calculated force,  $F$  and the percentage of error will be calculated in this experiment.
